Standard Preferred

Drug List

For the latest version of Network Health Preferred Drug list,
log onto **networkhealth.com/look-up-medications**.

July 2025
S0-010-120-07/25

PURPOSE

Network Health developed the Preferred Drug List (PDL) to provide members/participants and practitioners with a listing of commonly prescribed medications. This listing includes preferred and non-preferred medications and indicates which copayment/coinsurance tier applies. Tier 0 indicates Affordable Care Act (ACA) Preventive medications. Defined medications listed in the ACA Preventive Drug List are subject to a \$0 copayment. Tier 1 includes generic medications; Tier 2 includes preferred brands and higher-cost generic drugs; Tier 3 includes non-preferred brand and high-cost generic medications; Tier 4 includes preferred specialty drugs; and Tier 5 includes non-preferred specialty drugs. For members/participants with a three-tier or four-tier benefit, please reference the tables below for further explanation of tiering.

Three-Tier Benefit

Tier 1	Tier 2	Tier 3
Generics	Preferred/Preferred Specialty	Non-Preferred /Non-Preferred Specialty

Four-Tier Benefit

Tier 1	Tier 2	Tier 3	Tier 4
Generics	Preferred	Non-Preferred	Preferred/Non-Preferred Specialty

Five-Tier Benefit

Tier 1	Tier 2	Tier 3	Tier 4	Tier 5
Generics	Preferred	Non-Preferred	Preferred Specialty	Non-Preferred Specialty

DEVELOPMENT OF THE PREFERRED DRUG LIST

Network Health's Pharmacy and Therapeutics Committee (P and T Committee) developed the PDL document. This committee, composed of practitioners and pharmacists from various medical specialties, reviewed the medications in all therapeutic categories based on safety, effectiveness and cost.

PDL development and maintenance is a dynamic process. The P and T Committee regularly reviews new and existing medications to ensure the PDL remains responsive to the needs of members/participants and health care providers. The PDL will be updated periodically. For the latest version of the Network Health PDL, visit networkhealth.com.

Network Health's Pharmaceutical Benefits Management Program is based on optimal standards of medical practice. Network Health's P and T Committee develops and monitors all pharmaceutical management policies, procedures, authorization criteria and the PDL.

Network Health delegates to the Pharmacy Benefits Manager (PBM) the approval process for prior-authorization-required medications, non-formulary medications, vacation overrides, quantity-level limits and prescriber status exceptions. A pharmacist reviews all authorization/exception requests that do not meet Network Health's criteria. If the pharmacist determines a denial is warranted, the PBM provides the verbal and written communication of the denial and how the denial may be appealed. The processing of appeals remains a Network Health function.

Please refer to the member/participant's Certificate of Coverage, Summary Plan Description, Policy, Prescription Drug Rider and Prescription Benefit Summary of Member/Participant Responsibility Table for particular plan design limitations. Network Health's preferred drug list (PDL) and prior authorization policies govern the rules and restrictions outlined in this document.

PREFERRED DRUG LIST MEDICATIONS

The PDL applies to prescription medications provided to outpatients. This is typically limited to medications obtained from participating pharmacies. Copayments/coinsurances and utilization management rules may also apply to medications administered in the practitioner's office. The PDL does not apply to medications given in the inpatient hospital setting. Please refer to your Summary of Member/Participant Responsibility Table and your Prescription Drug (Rx) Rider in the benefit booklet within the member portal for which copayments/coinsurances apply to your benefit.

UNAPPROVED USE OF PREFERRED DRUG LIST MEDICATIONS

The Certificate of Coverage, Summary Plan Description or policy states a medication will be eligible for coverage only if it is a Food and Drug Administration (FDA) approved medication used for non-experimental reasons. Non-experimental uses include the labeled indication(s) (FDA-approved) and other indications accepted as effective by scientific evidence and informed professional opinion. Experimental and investigational drugs and drugs used for cosmetic purposes, such as weight loss or erectile dysfunction, are not eligible for coverage. Members/participants should refer to their Certificate of Coverage (COC) or Summary Plan Description for a detailed list of exclusions.

COPAYMENT/COINSURANCE DETERMINATION

The information listed in this document contains the most commonly prescribed medications and was current at the time of publishing, however, changes occur frequently. The member/participant's actual copayment/coinsurance will be determined at the time the prescription is filled. The member/participant will only pay the applicable copayment/coinsurance for the prescription unless one of the following conditions apply.

- **GENERIC MEDICATIONS**

If the practitioner indicates "Dispense As Written," or if the member/participant requests the brand name product for a medication where a generic is available, the member/participant must pay the applicable brand copayment/coinsurance plus the ancillary fee. The ancillary fee is the cost difference between the brand name product and the generic product. When a generic substitution conflicts with state regulations or restrictions, the pharmacist must gain approval from the prescriber to use the generic equivalent.

- **NON-PRESCRIPTION MEDICATIONS**

Unless a specific exception is made, non-prescription or over-the-counter (OTC) products are not covered. If a prescription is written for a medication available as an OTC product, the prescription product will not be covered. If the member/participant or practitioner insists on the prescription product, the member/participant will be responsible for the entire cost of the prescription.

- **SPECIALTY PRODUCTS**

The P and T Committee designates certain pharmaceutical products as specialty products. The PDL lists these products and indicates if they are preferred or non-preferred. For members/participants with a three-tier prescription benefit, these products will be covered as Tier 2 (Preferred products) and Tier 3 (Non-Preferred products). For members/participants with a four-tier benefit, all specialty products will be covered as Tier 4. For members/participants with a five-tier prescription benefit, these products will be covered as Tier 4 (Preferred products) and Tier 5 (Non-Preferred products). Specialty products must be obtained through Accredo Specialty Pharmacy at 800-803-2523 unless otherwise indicated in the Network Health PDL, in the member/participant's Prescription Drug (RX) Rider, COC, by home infusion or if the medication is administered in the practitioner's office.

Please refer to the member/participant's Certificate of Coverage, Summary Plan Description, Policy, Prescription Drug Rider and Prescription Benefit Summary of Member/Participant Responsibility Table for particular plan design limitations. Network Health's preferred drug list (PDL) and prior authorization policies govern the rules and restrictions outlined in this document.

- **COMPOUNDED PRESCRIPTIONS**

Compounded prescriptions are prescriptions prepared by a pharmacist and include two or more different pharmaceutical products. Compounds contain one medication that is called a primary ingredient. Approved compounded prescriptions will be covered at the Tier the primary ingredient is on and will take the copayment/coinsurance amount of that Tier. Please refer to the Prescription Benefit Summary of Member/Participant Responsibility Table located in the benefit booklet within the member portal for specific copayment/coinsurance information.

SMOKING CESSATION PRODUCTS

The prescription and OTC smoking cessation products listed in this document will be covered at no cost for up to 180 days per year (two quitting attempts per year at a 90-days per quit attempt). The year is 365 days from your first prescription fill.

SPLIT-FILL PROGRAM

Certain orally administered medications have the potential to produce frequent or severe side effects that sometimes require discontinuation of therapy. To prevent the potential waste of expensive medications for members/participants who are new to therapy, a subset of medications will only be allowed to be filled for a 14- or 15-day supply fill for the first fill at a prorated copayment. If the medication is being tolerated and member/participant wishes to continue therapy, the remainder of the fill will be sent for the rest of the copayment. These medications are designated in the PDL with Split-Fill in the comments.

PREFERRED DRUG LIST ORGANIZATION

Medications are grouped by drug-class categories. Please refer to the INDEX section at the back of the PDL for an alphabetical listing of medications, as well as a reference to the specific page number each medication falls on. Members/participants will need to locate the medication within the chapter section to verify which tier the medication falls within, as well as determine if there are any special requirements or limitations for using the medication. Medications listed in CAPITAL LETTERS are brand name products. Medications listed in lowercase letters are generic products. It should be noted that even if a medication is listed, it does not necessarily mean all strengths and dosage forms have the same copayment/coinsurance and/or limitations. Some of the common exceptions have been indicated, however, due to the size of the PDL, a comprehensive listing of all dosage forms and names is not possible. For information on medications not listed, please call Express Scripts at **800-309-7583** or go to express-scripts.com.

PRIOR AUTHORIZATION, QUANTITY LIMITS, STEP THERAPY

To promote the most appropriate utilization, certain medications have additional restrictions applied to them. These restrictions have been established by the P and T Committee with input from local practitioners and consideration of the current medical literature and are indicated in the LIMITS & RESTRICTIONS column of the PDL. In the case of medications requiring prior authorization, the member/participant's practitioner must request approval for coverage prior to the prescription being filled. These medications contain the letters "PA" in the LIMITS & RESTRICTIONS column.

Prescriptions for medications with quantity limits may not be dispensed in quantities greater than what is listed. The LIMITS & RESTRICTIONS column identifies these medications with "QL=" followed by the limit. Finally, some medications follow step therapy rules. That means different product(s) must be tried before Network Health will cover the requested medication. These medications are indicated in the LIMITS & RESTRICTIONS column with "ST". If the member/participant and their practitioner feel that

any of the above restrictions do not meet the needs of the member/participant, the practitioner may call the PBM to have a request for an exception reviewed.

Opioid medications have enhanced Morphine Milligram Equivalent (MME) utilization management criteria. These medications are labeled “OP and/or ST” in the LIMITS & RESTRICTIONS column of the PDL. The enhanced MME-based utilization management criteria will limit the days’ supply, limit the quantity of opioids and/or require step therapy. The length of the first four fills (when appropriate) will be limited to seven days for adult members and three days for pediatric members with new immediate release acute pain prescriptions (not to exceed a 28-days’ supply in a 60-day period). Plan members identified as a first fill patient will be based on claims history. Physicians can submit prior authorization (PA) requests if they think it is clinically appropriate to exceed the seven-day limit. The quantity of opioid products prescribed (including those combined with acetaminophen, aspirin or ibuprofen) will be limited to up to 90 MME per day (based on 30-day supply) for new utilizers and 200 MME per day (based on 30-day supply) for existing utilizers. Use of immediate-release (IR) formulation will be required before moving to an extended-release (ER) formulation, unless members were prescribed an IR or ER product previously (based on our claims history) or the prescriber submits a PA request.

FORMULARY EXCEPTIONS

If your drug is not on the PDL, you have two choices:

- Ask customer service for a list of similar drugs covered by Network Health. When you get the list, show it to your practitioner and ask to have a similar drug that is covered by Network Health prescribed. Similar drugs that are preferred and covered by your plan’s formulary may be easier to obtain and lower cost to you than the non-preferred drug.
- Ask Network Health to make an exception and cover your drug. Exception requests may include:
 - You can ask us to cover your drug, even if it’s not on the PDL.
 - You can ask us to remove coverage restrictions or limits on your drug. For example, for certain drugs, Network Health limits the amount of the drug we will cover. If your drug has this quantity limit, you can ask us to remove the limit and cover more.

Generally, Network Health will only approve your request for an exception if the preferred drugs included on the plan’s drug list are not as effective in treating your condition or cause you to have adverse medication effects.

To obtain a drug exception, ask your practitioner to send a statement supporting your request.

- For drug exception requests received pre-service, we will make our decision within fifteen business days of receipt of the necessary information to make a decision.
- You can ask for an expedited (fast) pre-service drug exception if your practitioner believes your health could be seriously harmed by waiting up to fifteen business days for a decision.
- If your pre-service drug exception expedited (fast) request is granted, we will give you a decision no later than 72 hours after we get your practitioner’s supporting statement.

The information listed in this document contains the most commonly prescribed medications and was current at the time of posting, however, changes occur frequently. The actual copayment/coinsurance will be determined at the time the prescription is filled. Individual and Family Plan (IFP) members who have a ridered condition may have drugs listed in the PDL that are not covered. For more information about your IFP benefits, contact the Network Health

Member Experience phone number on the back of your member ID card. For additional prescription drug information, log onto express-scripts.com or call Express Scripts at 800-309-7583.

Please refer to the member/participant's Certificate of Coverage, Summary Plan Description, Policy, Prescription Drug Rider and Prescription Benefit Summary of Member/Participant Responsibility Table for particular plan design limitations. Network Health's preferred drug list (PDL) and prior authorization policies govern the rules and restrictions outlined in this document.

HMO and POS plans underwritten by Network Health Plan. Self-insured plans administered by Network Health Administrative Services, LLC.

Discrimination is Against the Law

Network Health complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex, including sex characteristics, including intersex traits; pregnancy or related conditions; sexual orientation; gender identity, and sex stereotypes. Network Health does not exclude people or treat them less favorably because of race, color, national origin, age, disability, or sex.

Network Health:

- Provides people with disabilities reasonable modifications and free appropriate auxiliary aids and services to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats).
- Provides free language assistance services to people whose primary language is not English, which may include:
 - Qualified interpreters
 - Information written in other languages.

If you need reasonable modifications, appropriate auxiliary aids and services, or language assistance services, contact Network Health's Compliance Officer.

If you believe that Network Health has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

Network Health
Attn: Compliance Officer
1570 Midway Place
Menasha, WI 54952
Phone: 800-826-0940
(TTY users should call 800-947-3529)
Email: compliance@networkhealth.com

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, Network Health's compliance Officer is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available

at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
200 Independence Avenue, SW
Room 509F, HHH Building
Washington, D.C. 20201
1-800-368-1019, 800-537-7697 (TDD)

Complaint forms are available at
<http://www.hhs.gov/ocr/office/file/index.html>.

This notice is available at Network Health's website: networkhealth.com.

Notice of Availability of Language Assistance Services and Auxiliary Aids and Services

ATTENTION: Free language assistance services are available to you. Appropriate auxiliary aids and services to provide information in accessible formats are also available free of charge. Call 800-826-0940 (TTY: 800-947-3529) or speak to your provider.

Albanian: Nëse flisni shqip, shërbime falas të ndihmës së gjuhës janë në dispozicion për ju. Ndihma të përshtatshme dhe shërbime shtesë për të siguruar informacion në formate të përdorshme janë gjithashtu në dispozicion falas. Telefononi 800-826-0940 (TTY: 800-947-3529) ose bisedoni me ofruesin tuaj të shërbimit.

Arabic: يهنيء تامدلك خوفرتسه، تبیر علا مغلا ثدحتن تك اذإ: تنيجا مالا تيوجلا عدساملا تامدخو عدمسا ناسو رفوت امك. انمجا ايهل لوصولا كن ميدت اقيستبت امولمعلا ريوفت. تباس منرقلا لع صلتا 800-826-0940 (800-947-3529) وأ (800) تمدخا مدقمه لـ ثدتها.

Chinese: 如果您说中文，我们将免费为您提供语言协助服务。我们还免费提供适当的辅助工具和服务，以无障碍格式提供信息。致电 800-826-0940（文本电话：800-947-3529）或咨询您的服务提供商。

French: Si vous parlez Français, des services d'assistance linguistique gratuits sont à votre disposition. Des aides et services auxiliaires appropriés pour fournir des informations dans des formats accessibles sont également disponibles gratuitement. Appelez le 800-826-0940 (TTY : 800-947-3529) ou parlez à votre fournisseur.

German: Wenn Sie Deutsch sprechen, stehen Ihnen kostenlose Sprachassistenzdienste zur Verfügung. Entsprechende Hilfsmittel und Dienste zur Bereitstellung von Informationen in barrierefreien Formaten stehen ebenfalls kostenlos zur Verfügung. Rufen Sie 800-826-0940 (TTY : 800-947-3529) an oder sprechen Sie mit Ihrem Provider.
